Comment:

Continuing previous reports*, the report gives an indication as to the type and scope of war material shipped from Czechoslovakia to the other Satellite Countries in the Balkans.

Some receiving stations for shipments conveyed within Czechoslovakia are known as military posts of units of corresponding branch of service, e.g., STET BUNK where the 12th Tank Brig is stationed and MILOVICE where the IV Bn/23rd Tank Brig is stationed.

The repeatedly reported shipments of mysterious items from the PILSEN Skoda Plant to THE EMERALD (parts of V-weapons?) cause suspicion that part of the reports may have been fabricated.
